SUMMARY

Self-motivated university graduate with a Bachelor's in Information Technology from Griffith University. I have a passion for Programming and a talent for Problem Solving.

EXPERIENCE

DATA MIGRATION SPECIALIST

Poolwerx Corporation Pty Ltd

Sep 2018 - Sep 2020

- Liaised with franchise partners in AU, NZ, and US to gather business requirements for Data Migration.
- Assisted in the planning, designing, and management of the Data Migration process.
- Performed migration and testing of company data from legacy systems to NetSuite (Cloud ERP System) for over 100 franchisees.
- Produced documentation of the entire Data Migration process including data extraction, data transformation rules, and data transfer specifications.
- Developed a tailored software application for validating, sanitizing, and standardizing customer addresses using Google Cloud APIs.

SOFTWARE DEVELOPER

Harry Gentle Resource Centre

Feb 2017 - May 2017

- Developed a content management system for a large collection of images.
- Developed a user-friendly interface for aiding in the transcription of old hand-written scanned documents into text.
- Employed an agile approach with bi-weekly face-to-face meetings with the client which allowed rapid development of a working product.
- Small team environment with a strict project time frame.

IT TECHNICIAN

Australian Parcel Box

Sep 2016 - Sep 2017

- Database administration and management
- Front-end website troubleshooting
- Back-end systems development and management
